Deputy Zoning Administrator,

Per your request, here are the statistics for Los Angeles Street between 2nd and 3rd Streets compiled by the Little Tokyo BID safety patrol for the 1st quarter of 2018 (Jan. 1 thru March 31).

The Little Tokyo BID is a merchant-based BID and, therefore, operates with a much smaller budget than other Downtown BIDs. We allocate about 85% of our annual budget to providing a two-person bicycle patrol from **9 a.m. to 12 midnight**.

Here are our 1st quarter stats and a few photos of the area along Los Angeles Street between 2nd and 3rd Sts. In April 2016, pursuant to Mitchell v. City of L.A., a preliminary injunction created a buffer zone around Skid Row which extends to 2nd Street on the north, 8th Street on the south, Spring Street on the west, and Alameda St. on the east. This "buffer zone" now includes the proposed 7-Eleven site.

1ST QTR STATS - LITTLE TOKYO BID

Calls for service from merchants, residents and other stakeholders: **148**

Contacts with transients/homeless: **197**

Encampments: **46**

Quality of life checks: **163**

Citizen assists: **93**
